NEHA KULKARNI

Email: neha.kulkarni@example.com | Phone: +91 91234 56789 | Location: Pune, India

PROFESSIONAL SUMMARY

Results-driven Machine Learning Engineer with 5.0 years of hands-on expertise building production MLOps pipelines, distributed deep learning architectures, and scalable inference microservices. Strong foundation in containerization, continuous integration, and Kubernetes model serving.

EDUCATION

- Bachelor of Engineering (B.E.) in Information Technology, Pune Institute of Computer Technology (PICT, Tier 2), CGPA: 8.6/10.0 (2015 - 2019)

CORE SKILLS & TECH STACK

- Languages: Python, SQL, C++, Bash
- ML & Deep Learning: Machine Learning, Deep Learning, PyTorch, TensorFlow, Scikit-Learn
- MLOps & Infrastructure: Docker, Kubernetes, AWS, MLOps, Git, CI/CD, MLflow, FastAPI
- Data Systems: Kafka, Redis, PostgreSQL

EXPERIENCE

Machine Learning Engineer | CloudScale Systems, Pune | 2021 - Present (3.0 years)

- Designed and maintained automated model training and validation pipelines on AWS using Kubernetes and Kubeflow.
- Containerized over 15 production microservices with Docker, slashing inference latency from 120ms to 28ms.
- Implemented real-time model drift detection and automated rollback mechanisms.

Associate Software Engineer | DataCorp Solutions, Pune | 2019 - 2021 (2.0 years)

- Built feature engineering pipelines in Python and SQL for tabular customer datasets.
- Deployed REST APIs using FastAPI for asynchronous inference serving.

KEY ACCOMPLISHMENTS

- Completed 8 production-grade projects.
- Certified: AWS Certified Solutions Architect - Associate, CKA (Certified Kubernetes Administrator).
- Notice Period: 30 days | Expected Salary: 22 LPA | Career Gap: 0 months
